

**Assistant/Associate Professor
Tenure Stream**

School of Nursing

Faculty of Health

The School of Nursing in Dalhousie's Faculty of Health invites applications from qualified candidates for a full-time, tenure stream faculty position at either the Assistant or Associate Professor level, depending on the candidate. Exceptional cases at the Professor level may be considered.

Dalhousie University is comprised of 6,000 faculty and staff amongst its 13 faculties. Current enrollment is 18,500 graduate and undergraduate students. As part of Canada's U15 research-intensive group, Dalhousie University is an influential driver of the region's intellectual, social and economic development. It is the largest university in Atlantic Canada and is located on the ancestral and unceded territory of the Mi'kmaq in the heart of Halifax (Kjipuktuk), a scenic coastal city and capital of Nova Scotia which is home to 13 Mi'kmaq First Nations, a deeply rooted African Nova Scotia community, an increasingly diverse population which also includes a vibrant workforce of people living with (dis)Abilities.

The Faculty of Health's faculty, staff and students are committed to improving the well-being of individuals, families, communities and populations through diverse health programming, collaborative research and strong community partnerships. The Faculty of Health is one of the largest faculties at Dalhousie, comprised of eight schools, one college and one program, more than 200 faculty members, 80 staff members, and over 3,000 students. With the most programmatically diverse health faculty in Canada, our students are exposed to a broad range of health topics and learning experiences.

The School of Nursing's vision is a commitment to strive in partnering to meet the health needs of Nova Scotia; uphold and validate the values of integrity, equity, inclusion and well-being: "healthy people and health communities". We manifest and advance curricula, scholarship and school culture that are congruent with those values.

Applicants must have a Ph.D. in a health-related discipline with demonstrated expertise in mental health and addictions. Applicants who are PhD prepared in Nursing, must be eligible for registration with the Nova Scotia College of Nurses. Evidence of contribution to scholarship, teaching, research and practice is desirable. Interprofessional education and distance and context-based learning, and/or clinical simulation learning experience is desirable. Expertise of the candidate must be supported by an excellent scientific publication record and research plan. One to two years of postdoctoral experience is

preferred. The incumbent will have demonstrated ability or potential for excellence in undergraduate and graduate teaching in areas that complement our teaching program, as well as excellent oral and written communication skills.

The successful candidate is expected to secure extramural research funding, including national Tri-council funding, and lead an innovative and collaborative research program aimed at applying their expertise to improve health and/or health care in mental health and addictions. This position complements faculty renewal and creates interprofessional teams to support the School and Faculty research strategy to develop a collaborative, supportive and efficient research infrastructure. For further information with respect to research alignment please visit <https://www.dal.ca/faculty/health/research.html>.

The successful candidate will be required to teach undergraduate/graduate students as well as mentor and supervise graduate students. The teaching assignments will include teaching in mental health and addictions as well as courses to reflect the expertise of the successful candidate within the needs of the School. A licence to practice as a Nurse Practitioner would be considered an asset. The candidate is expected to become an active and engaged member of the School, Faculty and University. Activities at local, national and international levels are expected to promote continuous improvement in research, teaching and learning at Dalhousie.

Applicants must include a cover letter stating qualifications and experience; a Curriculum Vitae, including a list of publications and major projects, a statement of teaching experience and interests, and a teaching dossier, including copies of teaching evaluations, if available.

Applications must also include an original, innovative 5-year research program plan with clear objectives that describes methodological approaches including partnerships or collaborations, fits within the School strategic pillars and addresses how proposed activities will be funded.

Please submit your complete application package to the PeopleAdmin portal at <https://dal.peopleadmin.ca/postings/2445>

Please include Search #F56Pin your cover letter.
