

E-RESOURCE FOR NURSING EDUCATION ON CLIMATE-DRIVEN VECTOR BORNE DISEASES

Empowering the next generation of health care professionals with knowledge, skills, tools, and supports to address infectious diseases related to climate change in Canada

Ultimate Goal:

Enhance the capacity of the next generation of nurses to address climate driven, vector-borne infectious diseases by:

- Increasing the knowledge of the effects of climate-driven vector-borne infectious diseases on population health in Canada amongst nurse educators
- Fostering the integration of this knowledge into Canadian nursing education

37 learning outcomes across 5 modules:

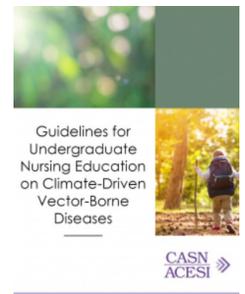

1. Climate Change: General Overview
2. Vector-Borne Infectious Diseases in Canada
3. Primary and Secondary Prevention of Vector-Borne Diseases
4. Tertiary Prevention of Vector-Borne Diseases
5. Awareness and Advocacy

Modules are:

- Dynamic
- User friendly
- Free and open-access
- Standardized
- Interactive

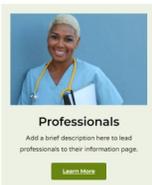

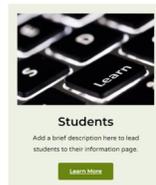

Support learning outcomes contained in the **climate-driven vector-borne diseases guidelines**

Who can use this Resource?

- Educators
- Students
- Professionals
