# General Sale Condition

## Institutions

This Educational Software Licensing must only be used for non-commercial educational purposes. It may be applied for schools, colleges, universities and other educational institutions: any government-accredited school can apply for educational licensing on a school purchase order.

## Contract duration

This contract is valid for a minimum of 12 months (24, 36, 48 or 60 months if more years entered above), except for Product ID B95 - SPECIAL OFFER that may be applied only one time per year.

Body Interact will notify any software price changes for subsequent years at the latest 4 months before the end of the overall commitment period in writing (email being sufficient).

On each subscription renewal date, selected content packages can be changed for other content package available in the Standard Library.

## Prices

Price ex-works, does not include taxes or shipping cost and any other customs clearance fees, if applicable.

Prices apply to a single school campus only. To use the software on another campus of the same institution, an additional license is required.

Hardware prices may vary due to market conditions without prior notice.

## Validity

Software prices are valid until December 31, 2022.

## Taxes

Taxes such as Value Added Tax (VAT) will be added as required by law and are borne by the Client, most international transactions do not require the addition of VAT, this does not imply potential tax implications for the Client by authorities in their jurisdiction and such taxes are borne by the Client.

## Invoicing and payments

Note that the content access part of your order will be split into 75% content, 25% technology on your invoice.

Standard terms for payment for software shall be 30 days from receipt of correct invoice.

Invoices that also include hardware items must be paid before shipping date.

## Content

At the beginning of the subscription, the content packages are chosen by the Client according to their availability in the product's Standard Library.

Scenario editing option is limited to changes on debriefing priorities without changing the health conditions core structure previously defined for each scenario.

Automatic updates & upgrades on software features or clinical guidelines are made through a built-in auto-updater system. Internet is required.

Body Interact takes no liability for correctness, completeness, or quality of the offered information and materials. Content produced by external authors does not represent an opinion held by Body Interact.

All the medications, diagnostics and treatment names shall be consistent with terminology commonly used in the US and EU markets.

## Copyright

The Client is not allowed to copy or recreate the content or violate Body Interact's copyright in any other way.

## Licenses

Licences are individual user licences, licence sharing is not permitted and will trigger termination of account and liability for damages to Body Interact.

Subscription is valid for 365 days after activation day, except for Product ID B95, SPECIAL OFFER.

An institutional email is required to set up any account. Accounts are only provided to Educators or Learners belonging to a unique School campus. Each user is only eligible for one single-user license. A proof of current academic status is required.

Each license requires internet connectivity every 30 days.

Body Interact software may not be used for development of any organization's products or services. Body Interact software may not be shared with any third parties.

## Training

Online training sessions for Educators will be given by video conference, with an estimated duration of one hour per session.

## Client support

Product Help Center is available at [help.bodyinteract.com](http://help.bodyinteract.com). Personalized client support is provided on business days, Monday to Friday, 9am-5pm Western European time, by email or chat, within 24 hours. Email: [support@bodyinteract.com](mailto:support@bodyinteract.com)

## Hardware warranty

Hardware purchased from Body Interact has 1-year limited warranty against any defects in material or workmanship when used under normal conditions.

## Hardware requirements

Hardware minimum requirements: Intel® Core i5 7th generation; dedicated graphic card; RAM 8GB; SSD hard drive; Windows 10. iPad with at least 2 GB of RAM and iOS 13. Android 8.0 or later and 2GB RAM. macOS Big Sur.

## Data Privacy Compliance

Body Interact acknowledges, warrants, and will comply with any applicable laws regarding personal data, including EU General Data Protection Regulation (GDPR), the Family Educational Rights and Privacy Act ("FERPA"), Telecommunications Act, the Video Privacy Protection Act and any applicable state legislation.

## Use of Name

Client hereby gives consent for Body Interact to show the name, insignia, or symbols of Client on its website and other materials as a Client, any press releases are to be coordinated with Client.

## Travel & expenses

If employees of Body Interact undertake travel in connection with the project, expenses are compensated based on the provided copies of receipts as follows: economy class rail or air travel, driving charges 0.60 EUR/USD per mile, hotel charges and daily allowances of 39 EUR/USD daily. Travel times count as working time.

## Mediation

If the efforts that are made by the parties to resolve any conflict fails, they agree to enter into a serious resolution effort with the help of a professional mediator registered with the Portuguese Association for Mediation before any legal steps are taken.

## Governing Law

This Order shall be governed by and construed and enforced in accordance with the European Union Regulation 593/2008, with court of Coimbra, Portugal.

# Medicine

Available scenarios in each content package

## C01

### Fundamentals of Medicine I

Recommended for  
MBBS, MD, DO, PA

Complexity  
Low

- \* #150 Dry cough, fever; Chest pain
- \* #151 Precordial pain
- \* #152 Abdominal pain, fever and vomiting
- \* #153 Cognitive alterations - acute motor lateralization
- \* #154 Backache, fever and shock
- \* #155 Orthopnea; tachycardia and hypoperfusion
- \* #156 Coma and bleeding wound
- \* #157 Cough, expectoration, fever
- \* #158 Accident - Bleeding wound and fractured member
- \* #159 Accident - Coma, Glasgow 7

## C02

### Fundamentals of Medicine II

Recommended for  
MBBS, MD, DO, PA

Complexity  
Low

- \* #160 Renal colic due to kidney stone
- \* #161 Pruritus, rash, dyspnea
- \* #162 Drug intoxication
- \* #163 Fever and cough
- \* #164 Diabetes and coma
- \* #165 Dehydration and metabolic acidosis
- \* #166 Dizziness, vertigo and vomiting
- \* #167 Difficulty breathing and wheezing
- \* #168 Abdominal pain, vomiting, fever
- \* #169 Fever, cough, dyspnea and shock

## C05

### Cardiovascular System I

Recommended for  
MBBS, MD, DO, PA

Complexity  
Low

- \* #2 Felt ill while dining at a restaurant
- \* #7 Persistent non-valvular AF with hemorrhage
- \* #10 Felt breathless and weak while dining at home
- \* #16 Woke up during the night feeling terrible
- \* #73 Cardiogenic shock
- \* #74 Failing or not failing right myocardium
- \* #130 Pericarditis
- \* #203 Felt ill during a walk
- \* #221 Felt pain and swelling on his right leg accompanied by shortness of breath
- \* #305 Fluid replacement protocol

APRN - Advanced Practice Registered Nurse  
CNS - Clinical Nurse Specialists

DO - Osteopathic Medicine  
MBBS - Bachelor of Medicine

MD - Medicine  
PA - Physician Assistant or Associate

\* Available in French

## C06

### Cardiovascular System II

Recommended for  
MBBS, MD, DO

Complexity  
High

- \* #11 Chest discomfort while caring for her garden
- \* #20 Awoke during the night with chest pain
- \* #54 Management of paroxysmal Atrial Fibrillation
- \* #55 Post-aortic valve endocarditis Cardiovascular risk management
- \* #72 Infective endocarditis and aortic regurgitation
- \* #99 Mysterious myocarditis in a young patient
- \* #100 Young decompensated patient with congestive heart failure
- \* #101 Heart transplantation in a HIV-positive patient
- \* #207 Felt ill disposed while tending her daily duties
- \* #222 Following a family argument, felt persistent chest discomfort

## C07

### Respiratory System I

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
Medium

- \* #13 Pulmonary embolism without hemodynamic instability
- \* #15 Shortness of breath and coughing with increased mucus production
- \* #129 Asthma and COPD
- \* #237 Shortness of breath and fever for three weeks
- #330 Dyspnea and chest pain
- #331 Cough with sputum in a diabetic patient
- \* #400 Cough and dyspnea in a diabetic patient
- \* #412 Acute respiratory distress syndrome
- \* #426 Flu-like symptoms and dyspnea
- #441 Sudden shortness of breath

## C08

### Nervous System I

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
High

- \* #110 Brain death due to severe ischemic stroke
- \* #230 Sudden weakness of left arm and leg
- \* #231 Acute stroke with alteplase indication and arrhythmia
- \* #232 Sudden difficulty to move right arm, facial asymmetry and impaired speech
- \* #233 Sudden right-sided weakness, impaired speech and facial asymmetry
- \* #234 Suddenly felt right-sided weakness and difficulty speaking
- \* #235 Was found down on the floor in his house
- \* #236 Suddenly felt drowsiness and right-sided weakness
- \* #268 Intracranial hemorrhage with vitamin K antagonist
- \* #324 Woman found on the floor of her home

## C09

### General Internal Medicine I

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
Medium

- \* #4 Fallen with shortness of breath and slurred speech
- #9 Found collapsed in his office
- \* #38 Nausea, sudden loss of eyesight and impaired speech
- \* #94 Acute pancreatitis on admission to ER
- #109 Critical kidney failure
- #183 Increased urination
- \* #190 Vomits with blood
- #195 Fall while walking
- \* #323 Female with abdominal pain
- #452 Young male patient with lip and tongue swelling

APRN - Advanced Practice Registered Nurse  
CNS - Clinical Nurse Specialists

DO - Osteopathic Medicine  
MBBS - Bachelor of Medicine

MD - Medicine  
PA - Physician Assistant or Associate

\* Available in French

## C10

### General Internal Medicine II

Recommended for  
MBBS, MD, DO

Complexity  
High

- \* #17 Felt ill during a dialysis session
- \* #18 Back to the hospital after recent hospitalization
- \* #19 Unwell again after back pain
- \* #37 Felt ill-disposed while on a walk
- \* #96 Acute renal failure
- \* #108 Hyperkalemia management of a patient with kidney failure and other comorbidities
- \* #128 Hereditary angioedema
- \* #412 Acute respiratory distress syndrome
- \* #426 Flu-like symptoms and dyspnea
- \* #448 Meningococcal septic shock

## C11

### Pediatrics I

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
Medium

- \* #132 Eight year old girl admitted to ED with fever, nausea, vomiting and weakness
- \* #133 Diabetic ketoacidosis with hypovolemic shock
- \* #134 Five year old boy with severe asthma
- \* #136 Five year old boy with severe croup
- \* #137 Child with meningococcal septic shock
- \* #138 Child with Benzodiazepine overdose
- \* #139 Child with decompensated supraventricular tachycardia
- \* #140 Infant with SVT and cardiogenic shock
- \* #141 Infant with acute viral bronchiolitis and mild respiratory failure
- \* #447 Child with severe asthma

## C12

### Pregnancy I

Recommended for  
MBBS, MD, DO, PA

Complexity  
High

- \* #273 OB clinic visit - 1st trimester
- \* #275 Pregnant patient with hypotension
- \* #277 Threat of premature birth
- \* #278 Pregnant woman with high fever
- \* #442 Preeclampsia in primigravid woman
- \* #443 Eclampsia seizures in primigravid woman
- \* #444 Pregnant woman not feeling well
- \* #446 Five minutes to save two lives
- \* #450 Pregnant patient with shortness of breath and chest pain
- \* #451 Abdominal pain and high fever in a third-trimester pregnant woman

## C26

### Trauma

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
Medium

- \* #28 Polytrauma #2
- \* #171 Fall from roof with shortness of breath
- \* #172 All-terrain vehicle accident
- \* #173 Motorcycle accident with an hypotensive patient
- \* #174 Motorvehicle accident with a patient without hypotension
- \* #362 Polytrauma #1
- \* #475 Bicycle trip
- \* #476 Motorcycle crash
- \* #477 Accident
- \* #478 Gang brawl

APRN - Advanced Practice Registered Nurse  
CNS - Clinical Nurse Specialists

DO - Osteopathic Medicine  
MBBS - Bachelor of Medicine

MD - Medicine  
PA - Physician Assistant or Associate

\* Available in French

## C40

### Toxicology

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
Medium

- \* #162 Drug intoxication
- #440 Hypoglycemia, hypothermia and opioid intoxication
- #461 Found unconscious in her home
- #463 Alcohol abuse
- #464 Found unconscious by the fireplace
- #465 Paracetamol intoxication
- #466 Unconscious
- #467 Self-poisoning
- #468 Mysterious disease
- #469 Suicidal attempt in garage

## C41

### Endocrinology

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
Medium

- #9 Found collapsed in his office
- \* #37 Felt ill-disposed while on a walk
- \* #38 Nausea, sudden loss of eyesight and impaired speech
- \* #133 Diabetic ketoacidosis with hypovolemic shock
- \* #201 Hypoglycemia with glucose administration
- #322 Female with nausea, vomits and headache
- \* #401 Found collapsed by his office colleagues
- #573 Senior complains of weight loss and thirst
- \* #601 Found in his office collapsed after working overtime
- #804 Patient with type 2 diabetes intolerant to metformin

## C42

### Sepsis and septic shock

Recommended for  
MBBS, MD, DO

Complexity  
High

- \* #4 Fallen with shortness of breath and slurred speech
- \* #17 Felt ill during a dialysis session
- \* #18 Back to the hospital after recent hospitalization
- \* #137 Child with meningococcal septic shock
- \* #219 Pregnant patient feeling badly
- #238 Child with acute pyelonephritis
- #325 Female with colic pain and fever
- \* #444 Pregnant woman not feeling well
- #481 Female with chronic renal failure
- #731 Surgery bowel obstruction

APRN - Advanced Practice Registered Nurse  
CNS - Clinical Nurse Specialists

DO - Osteopathic Medicine  
MBBS - Bachelor of Medicine

MD - Medicine  
PA - Physician Assistant or Associate

\* Available in French

# Nursing

Available scenarios in each content package

## C30

### Nursing Emergencies

Recommended for  
CNA, LPN, RN, BSN, CNS, APRN

Complexity

- #499 COPD
- #500 ICTUS
- #531 Feeling bad
- #535 Septic shock due to pneumonia infection
- #560 Homeless found collapsed in the street
- #582 Anaphylactic shock
- #587 Toxin infection
- #590 Behaviour challenge

## C32

### Maternity and Women's Health Nursing

Recommended for  
CNA, LPN, RN, BSN, CNS, APRN

Complexity  
Medium

- #12 3rd Trimestre
- #14 Hemorrhage in recovery room
- #43 Shoulder dystocia
- #51 Shoulder dystocia #2
- #84 Premature rupture of membranes
- #297 Umbilical cord prolapse
- #315 Preterm labour
- #316 Active labor at home
- #321 Gestational diabetes
- #530 Miscarriage

## C36

### Respiratory Care

Recommended for  
CNA, LPN, RN, BSN, CNS, APRN

Complexity  
Low

- \* #77 Shortness of breath and tiredness for the past few days
- \* #85 Expectoration in patient with stoma ventilation
- \* #86 Shortness of breath and fever without expectoration
- \* #125 Resting dyspnea
- \* #196 Compromised airway clearance - noninvasive ventilation patient
- #244 Hypoxia in hypercapnic patient with COPD Group C
- \* #245 Hypoxia in patient with COPD Group B without hypercapnia
- #246 Compromised airway clearance in COPD group D patient
- #251 Ineffective airway clearance - COPD group D and noninvasive ventilation patient
- #252 COPD group D with dyspnea

APRN - Advanced Practice Registered Nurse  
BSN - Bachelors Science Nursing

CNA - Certified Nursing Assistant  
CNS - Clinical Nurse Specialists

LPN - Licensed Practical Nursing  
RN - Registered Nurse

\* Available in French

## C37

### Medical-Surgical Nursing I

Recommended for  
CNA, LPN, RN, BSN, CNS, APRN

Complexity  
Low

- \* #24 Hypoglycemia
- \* #126 Urinary retention
- \* #152 Abdominal pain, fever and vomiting
- \* #161 Pruritus, rash, dyspnea
- \* #170 Hypovolemic shock
- \* #178 Reflex urinary incontinence
- \* #187 Compromised consciousness in patient with hemorrhagic stroke
- \* #188 Impaired consciousness
- \* #189 Increased intracranial pressure
- \* #413 COVID suspicion

## C34

### Medical-Surgical Nursing II

Recommended for  
MBBS, MD, DO, PA, CNS, APRN

Complexity  
Medium

- #532 Traumatic brain injury
- #536 Girl with severe asthma
- #538 2nd floor fall
- #583 Pale leg
- #586 Child with overdose
- #588 Preoperative assessment
- #592 Infected wound
- #593 Kidney failure
- #594 Anticoagulated woman requiring surgery
- #595 Renal impairment

## C38

### Fundamentals of Nursing

Recommended for  
CNA, LPN, RN, BSN, CNS, APRN

Complexity  
Low

- \* #8 Shortness of breath and fever
- \* #75 Prostration with fever
- \* #226 Osteoporosis in hypertensive patient
- \* #227 Persistent high blood pressure
- #344 Metastatic breast cancer patient with unretracting pain
- #345 Male with ten year history of COPD
- #346 Congestive heart failure
- #534 Confused
- #584 Bladder globe
- #589 Fall stake

## C39

### Wound Care

Recommended for  
CNA, LPN, RN, BSN, CNS, APRN

Complexity  
Medium

- #47 Mild diabetic foot ulcer identification and classification
- #562 Grumpy patient with type 2 diabetes visits the nurse
- #563 Total hip arthroplasty follow-up by a nurse
- #589 Fall skate
- #592 Infected wound
- #642 Long-term care
- #643 Nursing home visit
- #644 Domiciliary visit
- #645 Bike fall with friends
- #646 Elderly fall

APRN - Advanced Practice Registered Nurse  
BSN - Bachelors Science Nursing

CNA - Certified Nursing Assistant  
CNS - Clinical Nurse Specialists

LPN - Licensed Practical Nursing  
RN - Registered Nurse

\* Available in French

## C43

### Cardiovascular Care

Recommended for  
CNA, LPN, RN, BSN, CNS, APRN

Complexity  
Medium

- #46 Atrial flutter
- #148 Feeling very tired
- #591 Chest pain after a family discussion
- #663 Early phase
- #664 Chest discomfort at the gym
- #665 Chest discomfort
- #666 Heart failure
- #667 Chest pain after a family argument
- #668 Heart infection
- #669 Pain on right leg

APRN - Advanced Practice Registered Nurse  
BSN - Bachelors Science Nursing

CNA - Certified Nursing Assistant  
CNS - Clinical Nurse Specialists

LPN - Licensed Practical Nursing  
RN - Registered Nurse

\* Available in French

# Community College

## C53

### CPR and First Aids

Recommended for  
All areas across Health Sciences

Complexity  
Low

All programs

- #757 Patient felt bad while tutoring the student
- #758 Girl felt unwell at friend's house
- #761 Mother with chest pain
- #762 Nut allergy
- #764 Boy felt indisposed at school
- #766 Hot water burn
- #768 Cardiac arrest
- #769 Asthma crisis
- #770 Recovery position
- #773 Airway obstruction

## C54

### Foundations of Nursing Practice I

Recommended for  
Community College - VN, ADN

Complexity  
Low

Nursing

- #148 Feeling very tired
- \* #188 Impaired consciousness
- \* #189 Increased intracranial pressure
- #534 Confused
- #584 Bladder globe
- #589 Fall skate
- #599 Child with urinary infection
- #642 Long-term care
- #643 Nursing home visit
- #645 Bike fall with friends

## C55

### Foundations of Nursing Practice II

Recommended for  
Community College - RN, LVN, LVN to RN

Complexity  
Medium

Nursing

- #459 Hypoglycemia
- #532 Traumatic brain injury
- #562 Grumpy patient with type 2 diabetes visits the nurse
- #582 Anaphylactic shock
- #583 Pale leg
- #585 Woman confused, dull and with slurred speech
- #587 Toxin infection
- #588 Pre-operative assessment
- #592 Infected wound
- #669 Pain on right leg

ADN - Associate Degree in Nursing  
CNA - Certified Nursing Assistants  
EMT - Emergency Medical Technician

LVN - Licensed Vocational Nurse  
NA - Nursing Assistants  
PSW - Personal Support Worker

RN - Registered Nursing  
VN - Vocational Nursing

\* Available in French

## C56

### Nursing in Maternal and Infant Health

Recommended for  
Community College - RN, LVN, LVN to RN

Complexity  
Medium

Nursing

- #84 Premature Rupture of Membranes
- #297 Umbilical cord prolapse
- #315 Preterm labour
- #316 Active labor at home
- #530 Miscarriage
- #536 Girl with severe asthma
- #599 Child with urinary infection
- #600 Child with vomiting and moderate dehydration
- #691 Child with pneumonia
- #692 School-age child with abdominal blunt trauma

## C57

### Nursing in Respiratory Conditions

Recommended for  
Community College - VN, ADN

Complexity  
Low

Nursing

- \* #75 Prostration with fever
- \* #76 Shortness of breath and fever with expectoration
- \* #77 Shortness of breath and tiredness for the past few days
- \* #83 Shortness of breath and expectoration in patient with long-term oxygen treatment
- \* #85 Expectoration in patient with stoma ventilation
- \* #125 Resting dyspnea
- #244 Hypoxia in hypercapnic patient with COPD Group C
- \* #245 Hypoxia in patient with COPD Group B without hypercapnia
- #247 Resting dyspnea in COPD patient
- #249 Ineffective airway clearance in patient with COPD Group D

## C58

### Nursing in Cardiovascular Conditions

Recommended for  
Community College - RN, LVN, LVN to RN

Complexity  
Medium

Nursing

- #46 Atrial flutter

## C69

### Nursing Assistant Care

Recommended for  
CNA

Complexity  
Low

*Nursing*

- \* #83 Shortness of breath and expectoration in patient with long-term oxygen treatment
- \* #125 Resting dyspnea
- \* #177 Compromised cardiac output
- \* #188 Impaired consciousness
- #246 Compromised airway clearance in COPD group D patient
- #344 Metastatic breast cancer patient with unretracting pain
- #345 Male with ten years history of COPD
- #381 Found at home without strength in the left arm
- #394 Found at home by her caregiver
- \* #413 COVID suspicion

## C60

### Respiratory and Cardiovascular System I

Recommended for  
Community College - EMT

Complexity  
Low

*EMS*

- #78 Asthma attack
- #308 Respiratory distress
- #310 Found collapsed in living room
- #311 Lung cancer
- #312 Supraventricular tachycardia
- #395 Myocardial infarction
- #486 Respiratory infection
- #487 Angina Pectoris
- #539 Hypertensive Crisis
- #541 Influenza

## C61

### Respiratory and Cardiovascular System II

Recommended for  
Community College - Paramedics

Complexity  
Medium

*EMS*

- #261 Pulmonary Edema
- #303 Dyspnea Protocol
- #306 Wide Complex Tachycardia
- #309 Bradycardia
- #314 Asthma exacerbation
- #317 Ventricular tachycardia
- #318 Homeless found unconscious
- #319 Shortness of breath
- #320 Compromised airway
- #553 Chest pain after running

## C62

### EMT Trauma Emergencies

Recommended for  
Community College - EMT

Complexity  
Low

*EMS*

- #52 Car accident
- #228 Fight in the neighborhood
- #393 The fall
- #506 Neck injury
- #507 Wound
- #524 Ankle fracture
- #527 Accident with tractor
- #760 Fall from stairs
- #763 Boy fell at school
- #764 He fell from a tree after placing a bet

ADN - Associate Degree in Nursing  
CNA - Certified Nursing Assistants  
EMT - Emergency Medical Technician

\* Available in French

## C63

### Paramedic Trauma Emergencies

Recommended for  
Community College - Paramedics

Complexity  
Medium

EMS

- #509 Roof fall
- #510 Stab wound
- #511 Tree fall
- #617 Shot in the chest
- #618 Aggression to homeless
- #619 Fall on the street
- #771 Fall from school roof
- #772 Injured by chainsaw
- #774 Boy stabbed at school
- #775 Knee injury

## C64

### Ambulance Transport

Recommended for  
Community College - EMT, Paramedics

Complexity  
Medium

EMS

- \* #201 Hypoglycemia with glucose administration
- \* #216 Woke up during the night feeling terrible
- \* #220 Woke up during the night with chest pain
- \* #229 Sudden Shortness of Breath in the Workplace
- #283 Pneumonia and COPD exacerbation
- #546 Unconscious on the street
- #549 Collapsed while taking a break at work
- #550 Severe dehydration
- #551 Seizure
- #556 Sickle Cell disease

## C65

### Respiratory Therapy

Recommended for  
Community College - Respiratory Therapists

Complexity  
Low

Respiratory Therapy

- \* #150 Dry cough, fever, Chest pain
- \* #157 Cough, expectoration, fever
- \* #163 Fever and cough
- \* #167 Difficulty breathing, wheezing
- \* #196 Compromised airway clearance - noninvasive ventilation patient
- \* #229 Sudden shortness of breath in the workplace
- #330 Dyspnea and chest pain
- #439 Chest pain
- #441 Sudden shortness of breath
- #574 Cough and shortness of breath that worsens with effort

## C66

### Health Aide / Caregiver

Recommended for  
Community College - Personal Care Assistant

Complexity  
Low

Health Aide / Caregiver

- #283 Pneumonia, COPD exacerbation (PSW)
- #284 Anatomic Dysreflexia
- #285 Acquired Brain injury
- #286 Cardiac Rehabilitation
- #380 Woman found unconscious in her living room
- #381 Found at home without strength in the left arm
- #686 Productive cough with fever
- #687 Skin care
- #688 Fractured humerus and pain
- #689 Palliative care

ADN - Associate Degree in Nursing  
CNA - Certified Nursing Assistants  
EMT - Emergency Medical Technician

## High School and CTE

Available scenarios in each content package

### C25

#### Fundamentals for Future Healthcare Professions I

Recommended for  
CTE

Complexity  
Low

- \* #150 Dry cough, fever; Chest pain
- \* #177 Compromised cardiac output
- \* #224 Mildly persistent asthma
- \* #225 Endocarditis and mitral stenosis
- \* #226 Osteoporosis in hypertensive patient
- \* #227 Persistent high blood pressure
- #344 Metastatic breast cancer patient with unretracting pain
- #345 Male with ten year history of COPD
- #346 Congestive heart failure
- #382 Speech impairment and difficulty in moving right arm

### C29

#### Fundamentals for Future Healthcare Professions II

Recommended for  
CTE

Complexity  
Low

- \* #76 Shortness of breath and fever with expectoration
- \* #126 Urinary retention
- \* #152 Abdominal pain, fever and vomiting
- \* #158 Accident - Bleeding wound and fractured member
- #380 Woman found unconscious in her living room
- #391 Opioid Intoxication
- #539 Hypertensive crisis
- #542 Two lives
- #551 Seizure
- \* #552 Distress

### C45

#### Basic approach to trauma patients

Recommended for  
CTE

Complexity  
Low

- #52 Car accident
- \* #158 Accident - Bleeding wound and fractured member
- \* #159 Accident - Coma, Glasgow 7
- #228 Fight in the neighborhood
- #506 Neck injury
- #507 Wound
- #524 Ankle fracture
- #527 Accident with tractor
- #589 Fall skate
- #645 Bike fall with friends

CTE - Career and Technical Education Programs

\* Available in French

## C46

### A glimpse into a Medical pathway

Recommended for  
CTE

Complexity  
Low

- \* #151 Precordial pain
- \* #153 Cognitive alterations - acute motor lateralization
- \* #154 Backache; fever; shock
- \* #161 Pruritus, rash, dyspnea
- \* #164 Diabetes, coma
- \* #166 Dizziness, vertigo, vomiting
- \* #168 Abdominal pain, vomiting, fever, Shock
- \* #169 Fever, cough, dyspnea and shock
- \* #196 Compromised airway clearance - noninvasive ventilation patient
- #461 Found unconscious in her home

## C47

### A glimpse into a Nursing pathway

Recommended for  
CTE

Complexity  
Low

- \* #85 Expectoration in patient with stoma ventilation
- #148 Feeling very tired
- \* #187 Compromised consciousness in patient with hemorrhagic stroke
- #534 Confused
- #584 Bladder globe
- #590 Behavior challenge
- #599 Child with urinary infection
- #642 Long-term care
- #643 Nursing home visit
- #663 Early phase

## C48

### A glimpse into a EMS pathway

Recommended for  
CTE

Complexity  
Low

- #78 Asthma attack
- #310 Found collapsed in living room
- #391 Opioid intoxication
- #392 Peanuts allergy
- #393 The fall
- #394 Found at home by her caregiver
- #542 Two lives
- #546 Unconscious on the street
- #550 Severe dehydration
- #556 Sickle Cell disease

## C49

### Introduction to Respiratory Care

Recommended for  
CTE

Complexity  
Low

- \* #75 Prostration with fever
- \* #77 Shortness of breath and tiredness for the past few days
- \* #83 Shortness of breath and expectoration in patient with long-term oxygen treatment
- \* #86 Shortness of breath and fever without expectoration
- \* #157 Cough, expectoration, fever
- \* #163 Fever and cough
- \* #167 Difficulty breathing, wheezing
- #244 Hypoxia in hypercapnic patient with COPD Group C
- #246 Compromised airway clearance in COPD group D patient
- #249 Ineffective airway clearance in patient with COPD Group D

## C50 Heart Challenge

Recommended for  
CTE

Complexity  
Low

- \* #155 Orthopnea tachycardia and hypoperfusion
- \* #170 Hypovolemic Shock
- #312 Supraventricular tachycardia
- #390 Cardiac Chest pain
- #395 Myocardial infarction
- #705 Early repolarization
- #706 Edema of the lower limbs with one week of evolution
- #710 Unspecified malaise
- #711 Arrhythmia
- #713 Felt bad at home

## C51 First aids

Recommended for  
CTE

Complexity  
Low

- #757 She felt bad while tutoring the student
- #758 Girl felt unwell at friend's house
- #759 Coming home from school
- #760 Fall from stairs
- #761 Mother with chest pain
- #762 Nut allergy
- #763 Boy fell at school
- #764 Boy felt indisposed at school
- #765 He fell from a tree after placing a bet
- #766 Hot water burn

## EMS

Available scenarios in each content package

### C14

#### General Medical I

Recommended for  
EMT

Complexity  
Low

- #539 Hypertensive crisis
- #541 Influenza
- #543 Onset diabetes
- #545 Transient ischemic attack
- #546 Unconscious on the street
- #550 Severe dehydration
- #551 Seizure
- \* #552 Distress
- #555 Septic shock
- #556 Sickle Cell disease

### C20

#### General Medical II

Recommended for  
Paramedic

Complexity  
Medium

- #540 Preeclampsia at late pregnancy
- #544 Generalized pain and fever
- #547 Headache
- #548 Returned from a trip
- #549 Collapsed while taking a break at work
- #553 Chest pain after running
- #554 Obvious distress
- #557 Status epilepticus
- #558 Blood disease
- #559 Bee sting

### C18

#### Trauma and Toxicology

Recommended for  
EMT

Complexity  
Low

- #52 Car accident
- #228 Fight in the neighborhood
- #492 Opioid
- #495 Hypothermia
- #505 Food poisoning
- #506 Neck injury
- #507 Wound
- #513 Benzodiazepine intoxication
- #524 Ankle fracture
- #527 Accident with tractor

EMT - Emergency Medical Technician

\* Available in French

## C24

### Toxicology and Trauma

Recommended for  
Paramedic

Complexity  
Medium

- #424 ASA overdose
- #496 Unknown poisoning
- #497 Airway respiratory irritant
- #498 Carbon Monoxide Inhalation
- #502 Acetaminophen overdose
- #504 Antidepressants intoxication
- #509 Roof fall
- #510 Wound stab
- #511 Tree fall
- #618 Aggression to homeless

## C28

### Ambulance Transportation

Recommended for  
Paramedic

Complexity  
Medium

- \* #201 Hypoglycemia with glucose administration
- \* #216 Woke up during the night feeling terrible
- \* #220 Woke up during the night with chest pain
- \* #229 Sudden Shortness of Breath in the Workplace
- #283 Pneumonia and COPD exacerbation
- #390 Cardiac chest pain
- #391 Opioid intoxication
- #392 Peanuts allergy
- #439 Chest pain
- #440 Hypoglycemia, hypothermia and opioid intoxication

## C33

### Cardiology and Respiratory

Recommended for  
EMT

Complexity  
Low

- #78 Asthma attack
- #308 Respiratory distress
- #310 Found collapsed in living room
- #311 Lung cancer
- #312 Supraventricular tachycardia
- #395 Myocardial infarction
- #427 Ineffective airway clearance
- #486 Respiratory infection
- #487 Angina pectoris
- #491 Suspected heart attack

## C35

### Respiratory and Cardiology

Recommended for  
Paramedic

Complexity  
Medium

- #261 Pulmonary Edema
- #306 Wide Complex Tachycardia
- #309 Bradycardia
- #314 Asthma exacerbation
- #317 Ventricular tachycardia
- #318 Homeless found unconscious
- #319 Shortness of breath
- #320 Compromised airway
- #485 Atrial Fibrillation
- #553 Chest pain after running
