

About Us

Our Vision

Excellence in simulation education and research through networking.

Our Mission

To connect nurse educators and allied health partners from across Canada and beyond to share knowledge, resources and expertise in areas of simulation research and education.

Our values

Collaboration, mentorship Innovation, scholarship.

- We believe collaboration strengthens our reach and impact
- We believe mentorship strengthens our membership
- We believe innovation moves the art and science of simulation forward
- We believe scholarly activities support educators and inspire new research

Developing Public Health Nursing Competencies

French Language Virtual Simulation Modules

Wound Care Series

Vaccine Hesitancy Series

Racism and Microaggression Series

What We Offer!

Educational Resources

- Peer-reviewed simulation scenarios
- Virtual simulation games (VSGs)
- Bilingual resources (English and French)
- Alternate experiential learning activities

Faculty Development

- Nursing education research and innovation grants
- Webinar series
- Simulation Design and Facilitation Workshops
- Virtual Simulation Design Workshops
- Virtual Debriefing Education Modules
- Clinical Instructor Education Modules

Networking

- Membership List
- Research Interest Group
- Monthly newsletter
- Collaboration opportunities
