Nursing Central™

Fully integrated learning and teaching platform

Nursing Central helps educators prepare next-generation nurses by promoting knowledge application and aiding in the development of clinical judgment skills. This comprehensive collection of nursing resources and essential tools provides educators with the flexibility to support multiple teaching methods, increase efficiency, and develop critical judgment skills required for next-gen learners to become confident practicing nurses.

What is Nursing Central?

Domain Knowledge

Trusted and regularly updated references are integrated into a flexible and easy-to-use platform. Choose from many popular resources with the option to add customized institutional content like case studies and curriculum.

Memorization Aids

In-text lookup, bookmarking, and note-taking features allow educators to quickly reference information while teaching or preparing lessons. Grasp™, Unbound's flashcard study system, provides an innovative way to share knowledge.

Tutorials

The Nursing Central platform includes educational webinars, instructional videos, audio pronunciations, checklists, and more to help educators optimize tools and resources. Check the Learning Center regularly for updates.

Assessment Tools

The Nursing Central platform features exclusive tools that help assess performance and comprehension as well as available NCLEX questions that help reinforce concepts and prepare students for their competency exams.

Knowledge Application

Whether it's care plans, drug cards, concept maps, or case studies, Nursing Central's trusted resources and tools support educators in developing active learning activities to promote knowledge application.

Clinical Judgment Development

Nursing Central delivers information quickly, allowing more time for critical thinking development. This increased efficiency leads to more practice—ultimately leading to better preparation and students' ability to build clinical judgment skills.

Customize Nursing Central™

The Nursing Central platform integrates a carefully curated set of trusted clinical resources with unique teaching and learning tools. Choose from any combination of resources to lead next-generation learners into nursing practice. Some of our most popular resources include:

Davis's Drug Guide
Davis's Drug Guide delivers up-to-date information on over 5,000 trade name and generic drugs.

Taber's Medical Dictionary
Taber's Medical Dictionary contains over 75,000 terms complete with video, images, and audio.

Davis's Laboratory and Diagnostic Tests
Davis's Laboratory and Diagnostic Tests includes over 400 complete test monographs.

Diseases and Disorders
Diseases and Disorders provides complete coverage of more than 250 medical conditions.

Nurse's Pocket Guide
Look up the signs and symptoms, link to the associated nursing diagnoses, and develop appropriate care plans.

Intravenous Medications
Consult critical information needed to reduce errors and administer IV meds with confidence.

NCLEX Quest
Be fully prepared for your NCLEX-PN or NCLEX-RN exam with the premier on-the-go study tool.

Nurses' Handbook of Health Assessment
Access step-by-step guidance at the point of care for assessing adults, children, and special populations.

Unbound Tools

A suite of clinical tools has been developed to make Nursing Central even more valuable. These tools provide the ability for individualized self-assessment and learning, improvement in point-of-need decision-making, and much more.

Calculators
Useful integrated clinical calculators

Notes
Custom notes and highlights within entries

PRIME PubMed
Citations, abstracts, and full-text from medical journals
