

## ***REIMAGINE AND REVOLUTIONIZE EXCELLENCE IN NURSING EDUCATION.***

**Lead excellence in nursing education** nationally, contribute to its advancement on the international stage, and promote nursing scholarship.

**Collaborate with nursing education colleagues** across the country on politicized advocacy at all levels of government to enable nurses to thrive through their education into practice.

**Advance Indigeneity, equity, diversity, inclusion, accessibility, and anti-racism** among students, clinical teachers, faculty, and staff by developing national resources for member schools and implementing initiatives that uphold these values.

**Promote national standards** of educational excellence that foster the best in nursing at each level.

**Co-define new models of clinical and interprofessional education** alongside practice partners and nursing students, and promote mentorship as a responsibility among all nurses.

**Reimagine and support nursing education** required for advanced practice, leadership roles, and specialization that are emerging in the Canadian health care system.

## Strategic Priority 1

**Champion  
Indigenization,  
Equity, Diversity,  
Inclusion,  
Accessibility, and  
Anti-Racism (IEDIAA)**

### GOAL

Foster decolonization and Indigenization, and promote anti-racism, inclusion, and accessibility, to advance reconciliation and ensure full diversity among Canadian nursing students, graduates, and faculty.

## Strategic Priority 2

**Invigorate Education  
Pathways**

### GOAL

Promote meaningful education pathways, guidelines, resources, and continuing education opportunities to foster the optimal preparation of Canadian nurses for entry-level roles, academic positions, advanced practice nursing, and specialization at all levels.

## Strategic Priority 3

**Stand With a United  
Voice for Nursing  
Education**

### GOAL

Build a united advocacy agenda with colleagues across the nursing community to advance excellence in nursing education.

## Strategic Priority 4

**Galvanize Transition  
to Practice**

### GOAL

Collaborate with colleagues in education, practice, government, and regulation to create education programs that enable Canadian nurses to thrive as they integrate into the workforce.

## Strategic Priority 5

**Lead Excellence in  
Nursing Education  
and Research**

### GOAL

Advance the quality and the currency of nursing education and nursing education research nationally and internationally to ensure populations receive the level, nature, and complex systems of nursing care they require.
