

Pocket Nurse®

Simulation Supply Kits

Everything simulation students need in one bag.

Simulation Supply Kits are preconfigured or custom-filled bags containing a carefully curated, curriculum-specific selection of healthcare simulation gear. Kits are designed to be used on a one-bag-per-student basis, with each containing supplies for learning and practicing a specific medical discipline. Kits are essential for healthcare students honing their skills in simulation labs and remote learning environments.

Buying Your Kits from Pocket Nurse®:

- **FAST turnaround time!** Most ship within 24 hours (preconfigured) or 2 weeks (custom)
- **Saves time;** Kits arrive ready for distribution to students
- **Reduces your inventory costs**
- **Provides exactly the number of Kits you need**
- **Helps students come to class with all supplies in one bag**
- **Reduces risk of spreading germs; no need to share items**
- **Saves storage space in your lab**
- **Shows school pride with on-bag logo imprinting option (custom Kits only)**

The Simulation Supply Kits Team is at Your Service

Simulation Supply Kits are managed by a dedicated team of product and service specialists, ready to fulfill orders quickly and accurately. This experienced staff of experts strives to provide the best products, service, and delivery to our customers. Our goal is to always exceed your expectations.

Pocket Nurse®

Simulation Supply Kits

Preconfigured Simulation Supply Kits: Nurse Designed for Student Success

Pocket Nurse offers preconfigured Kits for students of many types of healthcare programs, as well as specialty tracks such as Physician Assistant and Phlebotomy. Preconfigured Kits can be easily ordered online at PocketNurse.com to speed up your order process. **Most preconfigured Kits ship in 24 hours.**

Custom Simulation Supply Kits: Build the Perfect Kit for Your Program

Nobody understands your educational mission and protocols better than you. This is why we provide custom Simulation Supply Kits to colleges, universities, high schools, and other learning institutions. Choose the products you need to optimize your students' learning experience. Our team then packs your Kit and, as an option, imprints it with your school logo. **Most custom Kits ship within two weeks!**

Make Your Custom Kits Order Stand Out with an Imprinted Bag

Adding custom imprints to your Kits order is an option that adds minimal cost. Pocket Nurse® will create a mock image of the bag with requested logo for the customer's approval. Lead time does not begin until the required artwork has been approved by the customer.
