Simulation Supply Kits

Nurse Designed for Student Success

Predesigned or custom filled, Pocket Nurse® Simulation Supply Kits contain a carefully curated, curriculum-specific selection of healthcare simulation supplies. Designed for one per-student use, Simulation Supply Kits are essential for honing a wide range of specialized skills. Kits arrive ready for distribution to your students, saving your valuable time.

Predesigned Kits are nurse-developed and packaged in a tote or other suitable carryall. These Kits include the most requested products for simulation-based learning within a specific program of study. Most Predesigned Kits ship in 24 hours!

Custom Kits let you choose the specific products you need to optimize your students' learning experience. Custom Kits can also be personalized with your school logo. Most Custom Kits ship within two weeks!
