20+ Nursing Schools

20+ Years of Experience

Testimonials

"Implementing a virtual document management system like Verified™ has been very convenient and accessible for our students. It allows us to be agile with new requirements and provides students easy access to their documents, reducing the risk of misplacement." - Pre-Placement Specialist, Arthur Labatt Family School of Nursing, Western University

About Us

Synergy Gateway Verified (SGV) is a technology leader specializing in signature compliance solutions for post-secondary education. By forging meaningful integrations and partnerships, SGV works with learners, PSIs, associations, and employers. Our innovative digital pathways streamline everything from student requirement document verification to licensing and accreditation, enabling seamless compliance practices from student to professional practice.

Our Platform

SGV's Verified™ is a fully managed virtual compliance platform that helps institutions protect PHI and PII, track and verify student and instructor pre-placement requirements online, and safeguard sensitive data with encryption, advanced permissions, and leak prevention.

"Having the checklist is super helpful for our students to have the reassurance that they are getting everything done, and even the visual aid of having the checkmark is really impactful for our students. I did a survey with our students post-using Verified™, and that was their number one feedback." - Placement Coordinator, School of Community Services, Cambrian College

**Empowering Compliance
Excellence: Where Technology
Meets Human Expertise**

"The entire team at Synergy Gateway is extremely responsive, open to suggestions, and creative when finding solutions to any challenges we faced. It is a very successful partnership for our students and administrative teams." - Records Manager, Durham College
