Job Title

Simulation Certificate Program Instructor

Job Overview

The Canadian Association of Schools of Nursing (CASN) has two open positions for instructors of two foundational modules of the [Canadian Nurse Educator Institute's Simulation Certificate Program](#). The instructors, in collaboration with the current instructors, will co-facilitate live sessions, grade assignments and ensure the module content remains current and evidence informed. The instructor will work remotely as the program is delivered online. This is a paid contract from March 1, 2026 – March 1 2027, with the possibility of renewal. The time commitment is approximately 30-40 hours per module, with an increase in time when significant updates are required.

Responsibilities and Duties

1. Participate in planning discussions as needed with CASN
2. Develop and update module assignment(s) and exams with other instructors
3. Participate in and monitor the module discussion forum
4. Provide individualized feedback on assignments.
5. Correspond with module participants, including during asynchronous weeks
6. Support the delivery of four synchronous sessions by Zoom for each module

Required Qualifications

- Current registration in Canada as a registered nurse
- PhD in a relevant field (education, nursing, etc.)
- Holds current certification as a Canadian Certified Simulation Nurse Educator (CCSNE)
- Currently employed as a faculty member or instructor at a Canadian school of nursing
- Minimum 5 years of teaching experience at a post-secondary level
- Minimum of 5 years of simulation experience, including design, facilitation, evaluation
- Conducted research or project-based work in the field of simulation in nursing,
- Excellence in teaching practice supported by evidence (e.g. recent student or peer evaluations)
- Strong collaboration and communication skills
- Fluency in English is required; proficiency in both official languages (English and French) an asset
- Publications in simulation research

CASN is committed to equity and diversity and welcomes applications of persons across a diversity of gender identities, gender expressions, sexual orientations, Indigenous identities, racialized identities, and disabilities and/or neurodivergences.

Recruitment-related accommodations for persons with disabilities are available on request.

We offer an annual stipend of up to \$12 000, depending on course load.

Application Process

The closing date for applications is January 26, 2026.

Applicants must submit

- a) a cover letter that includes information on teaching evaluations and any specialized experience within simulation.
- b) a curriculum vitae
- c) a letter of reference that demonstrates excellence and collaboration in teaching practice in simulation (may be from a colleague, dean, chair, or student).

Please direct any questions and submit applications to Keith Beriault (kberiault@casn.ca).
